Reminder from a previous Board Meeting

The board had a discussion on how fellow members should be addressed at meetings. It was agreed that it is too difficult to remember members past titles, so from now on, it is appropriate to simply use the **term Kiwanian and the person's first name** for all members, with one exception. The person chairing the meeting should still be addressed using their proper title. Also remember that there will be a fine for addressing a member by Kiwanian followed by their surname as opposed to their first name.
